## ECLIPSES, 1930

In the year 1930 there will be four eclipses, two of the sun and two of the moon.

1. *A Partial Eclipse of the Moon*, April 13, 1930, visible at Toronto. Moon enters the penumbra, April 12th 10h. 42.9m. Enters the Umbra April 13th 0h. 20.7m.: Middle of eclipse 13th 0h. 58.2m.: leaves the Umbra 13th 1 hr. 35.6 m. leaves the penumbra 13th 3 hrs. 13.8 min. 75th Mer. Time.

2. *A Central Eclipse of the Sun*, April 28, 1930. Visible at Toronto as a partial eclipse. The central eclipse will be total for about thirty-eight minutes at the middle of its duration. For the rest of its duration it will be Annular. The eclipse begins April 28, 11 hr. 20.0 m. Central eclipse begins 12h. 25.7m. Changes from Annular to total 13h. 48.8m. Changes from total to annular 14h. 26.9m. Eclipse ends 16h. 45.9 min.

3. *A partial Eclipse of the Moon*, October 7, 1930, invisible at Toronto: the beginning and ending visible generally in Asia, Australia, the Indian Ocean, Europe and Africa. Magnitude of the Eclipse equals 0.029 (Moon's dia. =1.0).

4. *A Total Eclipse of the Sun*, October 21-22, 1930, invisible at Toronto. Visible generally over the South Pacific Ocean from the North of Australia to Southern Patagonia.

The earth in Perihelion (nearest the Sun) January 3, 7 a.m., and in Aphelion (furthest from the sun) July 2, 7 p.m.

## MORNING AND EVENING STARS, 1930

*Mercury*—Evening Star to January 21.
Morning Star to April 1. Evening Star to May 20.
Morning Star to July 15. Evening Star to Sept. 21.
Morning Star to Nov. 6. Evening Star to end of year.

*Venus*—Morning Star to Feb. 6. Evening Star to Nov. 22. Morning Star rest of year. Greatest brilliancy Oct. 18 as an Evening Star, and Dec. 28 as a Morning Star.

*Mars*—Nearest the sun April 22. Not very favourably situated in the sky for seeing during the year, except towards the ending.

*Jupiter*—In conjunction with the sun becoming a Morning Star after June 20.

*Saturn*—In opposition to the Sun June 30 but will be rather low down in the sky owing to its large southerly declination.

## STANDARD TIME

Standard time is used throughout Canada. It is divided into five divisions—the time in each division being one hour slower than the time in the adjoining division to the east.

### DIVISIONS AS FOLLOWS

| Name | GOVERNING MERIDIAN |
|---|---|
| ATLANTIC | 60° or 4h from Greenwich |
| EASTERN | 75° or 5h " " |
| CENTRAL | 90° or 6h " " |
| MOUNTAIN | 105° or 7h " " |
| PACIFIC | 120° or 8h " " |

## Rates of Postage

Post Cards—Canada, Great Britain and other places in British Empire, U.S., Mexico or Cuba, 2c. each. All other countries, 4c. each.

Letters—Canada and United States, 2c. per oz. and 2c. for each additional oz. Great Britain and other places in British Empire, and Cuba, 2c. per oz. and 2c. each additional oz. For other countries, apply at Post Office.

Newspapers—Canada, U.S., Mexico, Great Britain and certain British possessions, 1c. per 4 ozs. All other countries 2c. per 2 oz.

Books, Catalogues, Circulars, Etc.—Canada, U.S. or Mexico 1c. per 2 oz. All other countries, 2c. per 2 oz. Limit of weight, Canada, 5 lbs., single book, 11 lbs. Limit of size, Canada, 3½ ft. in length, width or depth. Length and girth combined not to exceed 6 ft. Special rates and limits for other countries.

Commercial Papers, Documents, Etc.—Canada, letter rate. Other countries, letter rate, or, in open covers 10c. per 10 oz., and 2c. each additional 2 oz.

Parcels—Canada, Great Britain and most countries to which Parcel Post extends, limit of weight, 15 lbs., limit of size, 3½ ft. length, width or depth: combined length and girth not to exceed 6 ft.

Registered Letters—For Canada and all Postal Union countries, 10c. in addition to postage.

Samples—Canada, U.S., and Mexico, 1c. per 2 oz. All other countries 4c. per 4 oz. and 2c. each additional 2 oz. Limit of weight Great Britain and Straits Settlements, 5 lbs.: Canada and all other countries, 1 lb. Limit of size, Great Britain, 2 ft. in length by 1 ft. in width or depth. Canada and all other countries, 1 ft. by 8 in. by 4 in., or, if in roll, 1 ft. in length by 6 in. in diameter.

## THE SEASONS

Ontario and Quebec—Eastern Standard Time

The Sun enters Aries, Spring begins March 21, 3.30 a.m.

The sun enters Cancer, Summer begins June 21, 10.54 p.m.

The sun enters Libra, Autumn begins Sept. 23, 1.37 p.m.

The sun enters Capricornus, Winter begins Dec. 22, 8.40 a.m.

For the Maritime Provinces these times are one hour later. For Manitoba one hour earlier, for Saskatchewan and Alberta two hours earlier, and for British Columbia three hours earlier.

For example in Manitoba the Spring begins at 2 h. 30 m. a.m. and in the Maritime Provinces 4 h. 30 m. a.m.

## BANK HOLIDAYS

Dominion of Canada only—New Year's Day: Good Friday: Easter Monday: Victoria Day: King's Birthday: Dominion Day: Labor Day: Christmas Day. Quebec—In addition to above, Epiphany: Ascension Day: All Saints' Day: Conception Day. Also throughout the Dominion, any day appointed by proclamation for a General Fast or Thanksgiving.

The astronomical data is based on the latitude and longitude of Toronto. The Standard Times at other places not differing much from Toronto in latitude may be obtained with sufficient accuracy for ordinary purposes by *adding* four minutes for every degree *west* and *subtracting* four minutes for every degree *east* of Toronto
